"The Thoroughbred" Model 96312 Rotary Composter

8-foot diameter and 26-feet long, 31 cubic yard capacity, Aluminum construction and insulated throughout. With all the features of our larger Rotaries, this is perfect for both the large horse breeder, or for Resorts and Amusement Parks. The chassis is equipped with 5 leveling jacks. One end removes completely for unloading or cleaning, and the central input door makes it easy to load. This is truly the Cadillac of large Composters!

Features found on all of our Rotary Composters

- **Octagonal shape, for complete mixing!**
- **2. Forced aeration, for complete aerobic activity!**
- **3. Non-corrosive construction, for long life!**
- **Octagonal shape does a better job of mixing than a round pipe.**
 - **Fully insulated, to keep the compost hot!**
- **Siemens programmable logic controller, for air and rotation.**
 - **Variable air supply, pumping air through the entire floor.**
- **All manual functions are controlled with simple toggle switches.**
 - **Non-Corrosive, Marine grade Aluminum used throughout.**
 - **Stainless Steel hardware.**
 - **Available with full Stainless Steel interior.**
- **Many different options, so you get just the savings you need.**

The Thoroughbred Economics

Model	Capacity	Size	Cost	Lease Cost	Savings	Compost Value/Year
Thoroughbred	31	8 X 26	\$80,000	\$1,097.75	\$22,850.10	\$4,095
